- Next.js
- React
- Tailwind css
- HTML
- CSS (+SASS)
- Git
- Webpack/Parcel/Vite

Languages

English (B2)

Russian (native)

About me

Over the past year, learning frontend development has become my main daily activity. I am good at finding information and reading documentation on my own and always looking to improve my soft and hard skills.

Previously as a sound engineer I worked with clients, so I'm very stress-resistant and sociable. I am a fast learner and I love challenges.

Experience

○ 2022 - present

Freelance Frontend Developer

Developed pet projects.

You can see them on my Github page:
